

**FUTURE MOBILITY**

**UTAC AND BLUEBINARIES SIGNED A MEMORANDUM OF UNDERSTANDING**

**AN END-TO-END OFFERING IN VERIFICATION & VALIDATION OF SOFTWARE DEFINED SYSTEMS FOR THE GLOBAL MOBILITY INDUSTRY**

UTAC and BlueBinaries announce today that they have signed a Memorandum of Understanding (MOU), to provide and position the two companies as end-to-end test solutions & services provider for mobility industry globally. This partnership, combining complementary assets and expertise of both groups across geographical locations, will support the mobility industry by offering a unique set of capabilities with tailor made solutions and services enabling the transformation in electrified powertrains, safety, and autonomous systems, connected mobility and software defined vehicles.

## A SHARED VISION FOR THE FUTURE MOBILITY

UTAC and BLUEBINARIES share capabilities that can accelerate the transformation of vehicle domains and the ecosystem, with spirit of innovation contributing to the future.

Both partners can support their customers worldwide thanks to 18 locations, 30 laboratories in 10 countries such as USA, UK, France, Germany, Austria, Morocco, India, China, Finland, Korea and Japan.

**Connor Mc Cormack, UTAC CEO**, says: *"I am very proud to have signed this MOU with BlueBinaries, a leading Indian company offering end-to-end engineering and technology development to the mobility industry which will allow UTAC to broaden its offerings and horizon across software related domains."*

**Srinivas Aravapalli, BlueBinaries, Founder and CEO** adds: *"I am equally excited on this unique partnership with UTAC enabling us to jointly offer end-to-end verification and validation services for Software Defined Systems of next gen vehicles, globally"*.

## About UTAC

UTAC is a market-leading international group in digital & sustainable mobility, customisable testing solutions, customisable testing systems, vehicle engineering, type approval, regulatory advice & expertise, certification, training, corporate events and classic & sportscars festivals. The Group provides services and systems to customers in the various sectors: mobility, transport, tyre, petrochemical, agriculture and defence industries. UTAC, the official Euro NCAP test centre in France, also has a unique position in Europe thanks to its ISO 17025-accredited test laboratories. UTAC operates test centres and laboratories in France, the UK, the USA, Finland, Morocco, and Germany; it has subsidiaries in China, Korea and Japan. UTAC employs around 1300 people worldwide.
